

Practical Examination Outcomes

As you know CLEAR Institute is doing everything in its power to ensure that the doctors that are certified by CLEAR are the best they can reasonably be. We want to be confident that any doctor recommended by CLEAR has the knowledge and understanding to give that patient the best care possible, and that CLEAR can be comfortable in making referrals to any doctors certified for treatment. We appreciate the patience & understanding exhibited by the examinees. There are four possible outcomes after a doctor completes the practical, which are outlined below:

1) PASS - the doctor failed five or less sections, achieving a 90% success ratio overall. The doctor will immediately be added to the CLEAR Institute web list of Treatment-certified practitioners, and will be granted the opportunity to develop a microsite associated with their clinic on the CLEAR website. Please note that the new requirements to maintain Treatment status is to submit at least one Case Study and attend at least one workshop (Basic or Advanced) every year.

2) PASS W/ CONDITIONS - the doctor failed six to ten sections out of fifty, achieving a score from 80% to 89%. They will be added to the CLEAR Institute Treatment list, but must re-take the sections that they failed before CLEAR Institute will provide them with the complimentary microsite. If the doctor does not re-take the failed sections within 6 months from receipt of their pass/fail notification, they will be removed from the Treatment list. There is a \$250 charge to re-take the failed sections of the Practical if taken within the 6 month time frame. After 6 months you will be required to retake the entire practical at the normal price to regain treatment status with CLEAR Institute.

3) FAIL W/ CONDITIONS - the doctor failed eleven to fifteen sections out of fifty, achieving a score of 70% to 89%. They will be required to re-take the failed sections before they will be added to the CLEAR Institute Treatment list and/or granted a microsite. This must also be accomplished within 6 months of receipt of pass/fail notification. There is a charge of \$250 to re-take the failed sections of the Practical if completed within the 6 month time frame. If not completed within the 6 months you will be required to retake the entire practical at normal price to achieve treatment status with CLEAR Institute.

4) FAIL - the doctor failed more than fifteen sections, achieving a score of less than 69%. They must re-take the Scoliosis Correction Seminar series (including Parts 1 & 2, which may be done in person in Dallas or online, and the Basic Workshop, which must be done in person) before they will be allowed to re-take the Practical. Normal fees for re-taking the Seminars & Practical will apply (the doctor still receives the 50% repeat attendee discount for Part 3).

Your individual results are being included with this e-mailed, along with a breakdown of the failed sections, the reason(s) for failure, and overall results. If you have any questions about the results, please feel free to contact me at drrobinson@clear-institute.org.
